Informations for the use of royal embroidery thread

1. Royal products are produced by ISO 9001, ISO 14001 process.
2. Royal products are free of harmful substances.
3. During the embroidery process, there is no need for any special lubricant treatment.
4. Store the thread in a dry place with no direct sun light (The thread stregth can be affected by excess of moisture).
5. When washing is required for finishing, use sufficient quantity of lukewarm water and neutral detergents.
6. When steam setting, use only pure steam, as boiling water can cause a color change.
7. Swiss Textile Testing Institue (TESTEX) approves color fastness to Perspiration (to acid solution & alkaline solution), color fastness to Rubbing (Dry crocking & Wet crocking) & color fastness to Water as 4-5grade.
8. Bleaching and fluorescent agents should not be used.
